REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. None of the prior art of record teaches or suggests an apparatus for forming three dimensional shaped products from particulate sphagnum moss material comprising: a conveyor including a belt formed of a flexible and resiliently deformable material and arranged to carry on the belt of the conveyor the particulate material and arranged to move in steps, means for continuously delivering particulate moss material onto the conveyor for conveying to a press forming stage and a spreader for spreading the particulate material to a substantially even thickness layer on the belt of the conveyor, a press forming stage including a cavity die member positioned beneath the belt of the conveyor and including a shaped die cavity, and a co-operating die member positioned above the belt of the conveyor and arranged to move after each step forward of the conveyor which delivers fresh particulate moss material between the die members, to press the section of the belt of the conveyor between the die members and the particulate material thereon into the cavity die member, to form a shaped product, the belt of the conveyor having sufficient resilience to lift the press formed product from the cavity die member after each operation of the press forming stage, the conveyor being arranged to convey the formed products away from the press forming stage. Kiss (4,221,556: figure 4) is the closest prior art. The reference teaches a belt (14) that feeds a preformed mat (3) to a two part press (1,12) and removes the part (3') from the molding cavity; however, the reference fails to disclose or suggest a means for continuously delivering particulate moss material onto the conveyor for conveying to a

press forming stage and a spreader for spreading the particulate material to a substantially even thickness layer on the belt of the conveyor. The claim has been given its broadest possible interpretation and not interpreted by the examiner as having a means-plus-function limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
